

**My Business Supports Green Amendment Protections
For My Communities & Our Environment**

*Protecting our environment is as good for business as it is for people.
Environmental health and economic success are inextricably intertwined.*

As a business leader, I recognize the important value of ensuring that all in my community have a defensible right to drink clean water; breathe healthful air; to enjoy the benefits of nourishing soils, sustainable ecosystems and supportive environments; and to ensure the protection of children and future generations to vibrant environments and a stable climate.

It is also good business to ensure that workers enjoy the health, quality of life, safety, education, and property value benefits that healthy environments provide for themselves and their families.

As a business leader and community member, I support the passage of constitutional Green Amendments in the state(s) where I operate in order to ensure the rights of all people to a clean, safe and healthy environment including water, air, soils, ecosystems, and climate.

I understand that you will be recognizing my business as a Green Amendment supporter on the Green Amendments For The Generations website and in educational/informational materials.
